RED ANGUS

ANNUAL
PRODUCTION SALE

60 BULLS | 20 OPEN REGISTERED HEIFERS | 110 OPEN COMMERCIAL HEIFERS

FEBRUARY 15, 2024 | 2 PM MST

WIX SALE BARN | RICHARDTON, ND

WELCOME TO OUR 12TH ANNUAL PRODUCTION SALE!

If you are a first timer looking at our catalog, thank you for your interest. If you have been here a while, thanks for your continued trust and support in our program. We really believe without you, we wouldn't be here.

2023 was a tough year for many of us. In our region weaning weights were down and many cattle were open. Makes you scratch your head from time to time and wonder what you did wrong, but knowing we are all in it together helps. As we analyze our own operation we do it with our customers in mind. Our bulls are weaned early and came off a bit light this year, but our cows bred back pretty good. You can definitely see the genetics shine when the bulls got on feed, they really blossomed! We didn't push them any harder this year even though we felt they were behind. We continually work with our nutritionist on balanced rations for growth and potential, always keeping the longevity of the bull in mind. If you have any questions on our nutrition program, please don't hesitate to ask.

We have a couple of new sire groups this year. PIE Asset 1276 was the high selling bull out of Pieper Red Angus's program in their spring 2022 sale. We were fortunate to purchase semen on him and we are sure glad we did. He puts a lot of muscle, bone, depth and capacity in his calves. They have stood out from day one. We also used STRA Relentless 8120 for the first time this year. The calves came a bit smaller than what we would like to see here, but when you look at what they have done on feed, they impress us more and more each time we look at them. They are moderate and have one heck of a profile. You will notice them sale day. This is the first year in many that we haven't offered any direct Quarterback sons, but we do have a handful out of a direct son we kept. As you thumb through the catalog you might notice a couple that look very dark, even black. No your eyes aren't deceiving you, we purchased some cows from Sun River Red Angus and these Mytty Resource 7701 sons were just too good to cut. So if any of you are looking for a black red carrier, here is an opportunity you probably won't get again from our program.

New to the sale this year is the addition of registered open heifers. We only had a couple late bred's this year, and didn't feel like it was worth putting two in the sale, so we took a closer look at the opens and decided to offer a few of them. We have also added a couple more groups of open commercial heifers. They come from long time customers of ours and we stand behind the quality of heifers these producers are offering. We are excited to have some customer's heifers to offer as this will be our last year for commercial heifers out of our own program. We made a big change and sold off our commercial herd this winter.

Once again thank you for your interest in our program. We welcome and encourage you to come out anytime and look at cattle.

**- CHRIS, JOLYN, KACEE AND
BRAELYN WASEM**

VIDEOS:

Videos may be viewed at DVAuction.com.
Additional videos, pictures and information on sale lots may also be viewed at:
www.wasemredangus.com; or our Facebook page.

VIEWING CATTLE:

Cattle will be available to be viewed at the ranch anytime prior to the day before sale day. On sale day at WIX Barn.

GENOMIC TESTING:

All Red Angus bulls have been GGP-uLD tested for increased accuracy EPDs and parent verification. IGS EPDs Powered by BOLT.

With the new EPD calculations through the BOLT software, EPDs are updated weekly. The new system provides more accurate genetic selection tools, however there was a shift in the averages of some EPDs, especially CED. With that in mind, please note the breed rankings of each sale bull listed in the line under his EPDs to assist in your bull-buying decisions.

SALE DAY LUNCH:

Lunch will be available sale day from noon to 2 p.m.

SEMEN INTEREST:

We reserve the right to 50% semen interest on all bulls sold. Any semen collected will be done at seller expense and at the buyers convenience.

SUPPLEMENT SHEET:

Will be available sale day and any other pertinent information. Cattle will sell in catalog order unless otherwise noted on sale day.

GUARANTEE:

Bulls are guaranteed to breed. A breeding soundness exam will be done prior to delivery. If a bull is proven unable to breed from that exam, buyer will be given a full refund of purchase price, credit in next year's sale, or a replacement bull of equal quality as acceptable to buyer. If a problem arises with a bull, please notify us immediately.

TERMS AND CONDITIONS:

Terms of the sale are cash unless other arrangements have been made. Any announcements made from the block on sale day will take precedence over information in the catalog. The sale will be conducted according to the terms and conditions of the RAAA available at:
redangus.org/marketing/sale-planner/sale-terms-conditions

DELIVERY:

We will deliver up to 300 miles at no charge. If you are farther than 300 miles, we will work with you to make arrangements. We would like to keep the bulls and continue to develop them until they are fertility tested and ready for delivery in April.

Bred and open heifers are the buyer's responsibility to be picked up. We will assist you in any way we can to get the heifers to your place.

ONLINE BIDDING:

The sale will be broadcast online with live bidding available on www.dvauction.com.

A great specimen to start the sale! This bull is the epitome of power and performance all while having a modest birth weight. He is out of a first calver that goes back to the powerful Looking Cool bull that left his mark with some powerful offspring in our herd and the Primrose 107W cow that needs no introduction. He's about as deep sided as you will find, wide bodied and has a number profile to back up his physique. A true herd bull with endless mating options.

2 WSM ASSET 3027L

BULL DOB: 03-12-2023 REG: 4805324 99.9% AR 0.1% XX CAT 1B ACT BW: 75 ADJ WW: 677

This first set of Asset calves have impressed us from day one and this guy rose to the top. Dark red, full of muscle, depth, capacity, wide topped and great bone structure pretty much sum up what we have to offer here. He's got the herd bull look to him and we are excited to see what he will do in the future.

BULL DOB: 04-11-2023 REG: 4806544 100% AR CAT 1A ACT BW: 74 ADJ WW: 670

Although we don't have any direct sons of Quarterback this year, we have used a couple of his sons the last couple of years and they have not disappointed. This guy has really jumped through all the hoops for us to put him in the number 3 spot. An April calf that does a lot of things right phenotypically and on paper. He's a bull you could use on heifers or cows and not give up any performance.

The Shooter calves are new to us this year. High growth and performance is what we are seeing with them. Super long bodied and sure to bring in some scale crushing calves in the fall. He comes from a proven dam that has a MPPA of 104 on seven calves and unfortunately we had to let her go due to an injured leg.

This is the first set of Machinist calves we have. We purchased him from Jacobson's a couple years ago ran him clean up on 30 cows and he pretty much had the summer off as he only sired 1 bull and 3 heifers. We will have more calves coming this spring and are excited to see more of what he has to offer. 3127 has tons of capacity to him just like his sire and stands on a big sound foot.

An awesome Quarterback 060H daughter that we felt would be a great start to the heifer sale. One we feel will go on to make a great cow in any herd. She's out of a cow we purchased from the Broken Heart Ranch as a heifer and has done a great job for us.

A - WASEM RED ANGUS OPEN COMMERCIAL HEIFERS: 40 HEAD

Once again we have a top notch group of heifers up for grabs. These heifers come from the top end of our commercial herd. Over the last several years we have not retained any commercial heifers in our herd, so you are getting the very best of what we have to offer on the commercial herd. These heifers were weaned early November and are current on all vaccinations, including bangs, and have had their first round of preg-guard 10. Prior to the sale they will all be preg tested open and breedable.

B - JON AND PATTY TEBELIUS OPEN COMMERCIAL HEIFERS: 40 HEAD

Jon and Patty Tebelius are located near Bowdon, ND, where they predominantly raise commercial cattle but have a few registered cows to keep them busy too.

These heifers are out of a cow herd with over 15 years of genomic testing to help with the replacement selection. The cow herd is culled strictly on disposition, reproduction, udders & feet. The heifers are sired by sons of Merlin, Cowboy, Brunswick, Hard Drive, and Stockmarket. The steer mates are known to feed well and grade well, shipping off the ranch at an average of 825# in early Nov. When selecting bulls Tebelius's focus on disposition, long body & easy fleshing, good structure, along with great dams in the bull lineage. The bulls EPD's must ring the bell on paper also! With over 20 years of Red Angus genetics, these heifers are ready to go to work in any environment.

C - DRY CREEK RANCH OPEN COMMERCIAL HEIFERS: 18 HEAD

Max & Haley Robison with Dry Creek Ranch have been raising both registered and commercial Red Angus cattle for the past 10 years near Amidon, ND. They aim to produce a low maintenance animal that will thrive in any environment thrown its way. Their goal is to develop moderate, but practical cattle that are structurally correct, good footed, and easy fleshing. They also rely heavily on docility and cull any animals that do not meet that requirement. The Robison's have utilized AI year after year. This particular set of heifers are April born and sired by HXC Allegiance 5502, WSM Seneca 1099J, or Red U2 Resource 189G. The heifers were weaned early November and have been developed at Wasem's since December 1st right alongside their heifers.

D - TATE AND SKYE HARRIS OPEN COMMERCIAL HEIFERS: 20 HEAD

For the first time we are offering 20 replacement heifers for sale. These heifers are right out of our top end replacements. I took the bottom end off at weaning time and made another sort before the sale leaving a very uniform set of heifers that will work anywhere. Our cattle summer in the Badlands country of the Little Missouri breaks. They are ranch cattle, not pampered or spoiled and know how to work for a living. These heifer calves will mature to be good cows and do the same thing. The majority of these heifers will be out of Wasem bulls or the cow itself will have Wasem blood in her. We have been using Wesem's bulls since they started. We also took Dean Knutson's cows on shares 2 years ago, so there will be some of his bloodlines in here as well. Anyone that knows Red Angus cattle knows that he bought all the top end red bulls for a long time and has had a closed herd for years. Our cows are on a mineral and salt program year-round and the heifers have had free choice salt and mineral since weaning. The heifers are not pushed and are fed right here on the ranch. They see nothing but chopped hay and a little bit of Steffan Feeds Heifer Development mix for some energy and protein. They are fed to hit grass growing and breed back. All these calves were born between April 1st and May 25th and weaned on October 24th. They should weigh around 700 lbs at sale time. They have had Dectomax injectable wormer, Multi-Min, poured with Clean Up and given their first round of Preg-Guard.

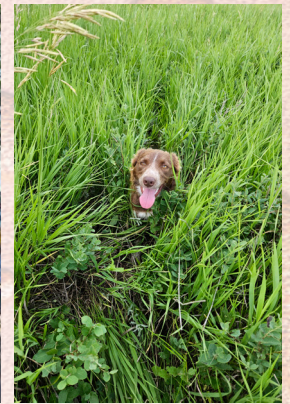

Rachel Oliver with the Red Angus Assoc came on a ranch visit this summer and said she would also take phone calls if anyone had any questions. She was able to see first-hand how we do things at the ranch and what the cow herd looks like. She can be reached at 1-406-480-1569.

Feel free to contact me anytime with further information.
